

УТВЕРЖДАЮ

Зав. кафедрой оториноларингологии
профессор Коркмазов М.Ю.
28.08.2025 г.

**Schedule of practical classes in "Otolaryngology"
for students of the Faculty of General Medicine, Group 527**

№	Lesson topic	Date	Teacher
1	Methods and techniques for endoscopic examination of the pharynx, nasal cavity, paranasal sinuses, larynx, and ear. Clinical anatomy and physiology of the auditory system. Methods for examining the auditory system.	01.11.25 9:00-12:20 in small hall №3	Korkmazov M.Yu.
2	Clinical anatomy and physiology of the vestibular system. Vestibular examination methods. Age-related characteristics. Labyrinthitis. Age-related developmental characteristics. Non-suppurative ear diseases: catarrh of the middle ear, clinical features in the elderly and senile population. Sensorineural hearing loss, clinical features in the elderly and senile population.	03.11.25 9:00-14:05 in small hall №3	Lengina M.A.
3	Clinical anatomy and physiology of the nose, paranasal sinuses, and pharynx, examination methods. Diseases of the nasal cavity. Acute and chronic sinusitis, polypous forms. Clinical features in the elderly and senile population. Occupational hazards in the etiopathogenesis of diseases of the nose and paranasal sinuses.	05.11.25 9:00-14:05 in small hall №3	Lengina M.A.
4	Clinical anatomy and physiology, examination methods of the larynx, trachea, bronchi, and esophagus. Acute laryngeal diseases. Age-related characteristics. Chronic laryngeal diseases. Occupational laryngeal diseases.	06.11.25 9:00-12:20 in small hall №3	Lengina M.A.
5	Foreign bodies, bleeding from the ENT organs. Methods for diagnosing foreign bodies in the ENT organs and their removal. ENT injuries. Nosebleeds – causes and methods for stopping bleeding. Clinical course and treatment in the elderly and old age. Tumors of the upper respiratory tract and ear. Infectious granulomas of the upper respiratory tract (scleroma, tuberculosis, syphilis). Lesions of the upper respiratory tract and ear in Wegener's granulomatosis and AIDS.	07.11.25 9:00-14:05 in small hall №3	Lengina M.A.
6	Clinical anatomy and physiology, pharyngeal examination methods. Pharyngeal diseases: acute and chronic pharyngitis, pharyngomycosis. Age-related characteristics. Acute tonsillitis, diphtheria, peritonsillar abscess, chronic tonsillitis, complications of acute and chronic inflammatory diseases of the pharynx, hypertrophy of the pharyngeal and palatine tonsils.	08.11.25 9:00-14:05 in small hall №3	Dubinets I.D.
7	Acute purulent ear infections: clinical presentation, diagnosis, treatment, and specific features in the elderly. Complications of acute purulent otitis media. Conservative therapy, indications for surgical treatment.	10.11.25 9:00-14:05 in small hall №3	Dubinets I.D.
8	Otogenic intracranial complications and otogenic sepsis. Rhinogenic orbital and intracranial complications. Peculiarities of the course of the disease in the elderly and senile population.	11.11.25 9:00-14:05 in small hall №3	Dubinets I.D.

A classroom at the State Budgetary Healthcare Institution "Chelyabinsk Regional Clinical Hospital" (Medical Town, 70 Vorovskogo Street), building 3, 2nd floor, ENT department
